FREQUENTLY ASKED QUESTIONS

So you really handle everything, even shipping?

Yep we sure do! We handle the entire auction process which includes writing a detailed description, taking professional photos, posting the item to the correct eBay category, answering all questions, receiving payment and shipping it out!

How soon before I receive payment for my item?

It can take between 2-3 weeks to receive a check in the mail. Our goal is to get you paid as quickly as we can!

Is there anything that does not sell well or that you won't accept?

Large furniture we tend to turn away because shipping is so expensive. Records, old magazines, baseball cards are a few examples of things that don't sell very well on eBay.

How do I know when my item goes on eBay and when it sells?

We send an automated e-mail the minute your item is posted to eBay and the minute it sells. If you don't have e-mail access, we suggest calling us approximately 8 days after dropping off your item.

How do I know what plan to choose?

If you want any kind of price protection for your item, we highly recommend the DELUXE PLAN.

What is the worst I could be out by trying your service?

If you select the STANDARD PLAN and your item does not sell, you would be out a \$1.00 pickup-fee on each item that does not sell. If your item does not sell on the DELUXE PLAN after two weeks, you would be out the \$10 PrePay.

What happens when a buyer does not pay for my item?

We hold everything here until payment is received. If for some reason your auction gets a non-paying bidder, we will simply re-list your item at no additional cost to you.
